PROFESSIONAL SUMMARY

I am a Fullstack Developer with expertise in **Node.js, NestJS, and Express** for backend development, applying **Clean Code practices** to ensure code quality and maintainability. I have strong skills in **TypeScript** for building scalable and robust APIs. On the frontend, I specialize in **React.js and NextJS**, leveraging these frameworks to integrate with external APIs and develop fullstack applications. I prefer **NextJS** for its fast development capabilities and SEO-friendly features. I also have expertise in **React Native** for mobile development.

EDUCATION

Bachelor's Degree in Systems Analysis and Development
Institution: Estácio de Sá University
Expected Graduation: 2025

PROFESSIONAL EXPERIENCE

SGBR Sistemas – Backend Developer
Period: July 2024 – Present

- Developing internal microservices using **NestJS** and **TypeScript**.
- Utilizing **Domain-Driven Design (DDD)** architecture.
- Working with both **relational (SQL)** and **non-relational (NoSQL)** databases.
- Implementing **logging systems, Unit of Work patterns, transactions**, among other resources.
- Using **Git** for version control.

FST Tecnologia – Fullstack Developer
Period: October 2023 – July 2024

- Building robust servers with **Node.js**, using **Express** and **NestJS** for efficient and scalable APIs.
- Implementing **JWT and bcrypt.js** for security.
- Integrating middleware such as **CORS** for additional functionalities.
- Developing reactive applications with **React**, integrating them with **MySQL and NoSQL databases**.
- Managing cloud infrastructure with **AWS**, ensuring service scalability and reliability.

Águas do Paraíba S.A – Web Developer Apprentice
Period: October 2022 – August 2023

- Developing and maintaining **responsive websites** with **HTML5, CSS, and JavaScript**.
- Using **Sass** and **Bootstrap** to accelerate development.
- Applying **SEO** and **accessibility best practices**.
- Collaborating with multidisciplinary teams to translate design requirements into functional code.

LANGUAGES

Portuguese: Native
English: Advanced
Spanish: Basic

ADDITIONAL TRAINING

- **JavaScript Developer Certification** – DIO (39h)
- **React: From Zero to Mastery** – Udemy (31h)
- **NodeJS: The Complete Guide** – Udemy (41h)
- **NLW Expert - Node.js Track** – Rocketseat (5h)
- **Next.js 14 & React: The Complete Guide** (40h)

PROJECTS

Tecma Educação – Frontend

An online course e-commerce platform built with **React.js**.

- SEO optimization for better visibility on search engines.
- Developed the frontend using **ReactJS**.
- Integrated APIs with **Axios**.
- Managed cookies with **js-cookie**.
- Global state management using **Zustand**.
- Efficient data fetching with **React Query**.
- Modern and responsive design with **Tailwind CSS**.
- Source Code: https://github.com/Josuerx12/Tecma-Educacao

Catálogo JC – Frontend

Developed using **NextJS** with **Atomic Design Architecture**.

- Used **Context API** for global state management.
- Connected to external APIs via **Axios**.
- Applied **best SEO practices**.
- Modern and responsive design with **Tailwind CSS**.
- Demo: https://catalogo.jcdev.com.br
- Source Code: https://github.com/Josuerx12/catalogonext

Frota CAP – Backend

A logistics system connecting customers, fleet teams, and repair shops.

- Framework: **Nest.js**
- Database: **PostgreSQL** with **PrismaORM**.
- Used **AWS SDK and S3** for file storage.
- Integrated **Nodemailer** for email dispatch via SMTP.
- API integrations with **Axios**.
- Source Code: https://github.com/Josuerx12/Frota-CAP
